Net1 has chosen Yanzi as M2M partner

Net1, a Swedish operator has chosen Yanzi as a key partner for their M2M strategy in the Nordic region. Net1 aims to utilize the unique network coverage that they have in the Nordic region (95%) to launch M2M solutions for both companies and consumers. The game-changing Internet-of-things software from Yanzi will be used as a fundamental platform for new innovative solutions. The two companies plan to release a number of new services based on the Yanzi software during 2013 - 2014.

About Net1

Net1 provides mobile broadband, IP telephony and M2M solutions to both individuals and businesses. We are the only company to use NMT 450 frequency and cover over 95 percent of Sweden's land area and 120 km off the coast.

Yanzi – Internet your things!

With the Yanzi Internet-of-things software platform, service providers can connect billions of things to millions of users to create new exciting services and revenue streams. The cloud service delivery platform allows users to wirelessly connect devices in a true Plug & Play fashion (Patent Pending). The Yanzi software is based on open standards and makes Internet-of-things dramatically easier to develop and deploy. Our mission is to deliver real and robust Internet-of-things solutions to the customers in a record-short time to improve their business performance. Key market applications are; remote site management, smart lighting, smart & secure home and smart cities. The technology is available globally through a network of professional systems integrators and leading service providers. For additional information please visit yanzi.se.
